

QUIZ

Autumn 2023

12/8/2023

Name: _____

1. There are three problems on this test. Take care to show your work including stating any assumptions unless otherwise mentioned. We have to be able to follow along and understand what you are doing and why.
2. **Please only write in the spaces provided below each question. Do not write in the margins. I have left ample space, you are not expected to completely fill it. If you need to continue on the back (for some reason), clearly indicate you are doing so on the front, otherwise we will not read it.**
3. Rules during the test:
 - (a) In the interest of fairness, we will not answer any questions that ask us to elaborate on any of the problems. The only issue you may bring to our attention are possible typographical errors. Please read the questions and answer them to the best of your understanding.
 - (b) If you are still working on the test 15 minutes before the end time, you will be expected to remain in the room through the end of the time, until after all tests are collected. We want to minimize disruptions/noise in the last 15 minutes.
4. A scientific calculator is necessary. Cell phones are not allowed. You are NOT allowed to share calculators.
5. You are only allowed to have the test/formula sheet/scratch paper, a pen/pencil/eraser and calculator on your desk. Pencil pouches, etc. are not permitted. **Everything you need should be on your desk at the start. Backpacks may not be opened during the test.**
6. Students must follow a reasonable code of conduct. Cheating or other dishonest practices will not be tolerated and will result in a final exam grade of zero. Such practices include, but are not limited to:
 - use of notes or calculator computations other than those permitted,
 - communicating with other students' during the test,
 - looking at other students' work, and
 - exposing your work purposely to the view of others.
7. Please sign the pledge below to acknowledge that you understand and will abide by these rules.
